

Cow	Quarter	Result	
Jitterbug	LH	No growth	Heavy growth
	LF	No growth	Moderate growth
	RH	Staph. species (moderate growth)	Minor growth
	RF	No significant growth	
		Interpretation: Jitterbug had a Staph. species infection in her right hind quarter at time of sampling.	No growth
Ambrosia	LH	Staph. species (moderate growth)	No significant growth
	LF	No sample	
	RH	No growth	
	RF	No growth	
		Interpretation: Ambrosia had a Staph. species infection in her left hind quarter at time of sampling.	
Lovage	LH	No growth	
	LF	Staph. species (heavy growth)	
	RH	No growth	
	RF	No sample	
		Interpretation: Lovage had a Staph. species infection in her left front quarter at time of sampling.	
Luxury Tax	LH	No growth	
	LF	Staph. species (moderate growth)	
	RH	No growth	
	RF	No growth	
		Interpretation: Luxury Tax had a Staph. species infection in her left front quarter at time of sampling.	
Klondike	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	Staph. species (moderate growth)	

		Interpretation: Klondike had a Staph. species infection in her right front quarter at time of sampling.	
Life	LH	Strep. species (moderate growth)	
	LF	Staph. species (moderate growth)	
	RH	No growth	
	RF	No growth	
		Interpretation: Life had a Staph. species infection in her left front quarter and a Strep. species infection in her left hind quarter at time of sampling.	
Mustache	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Faith	LH	Staph. species (moderate growth)	
	LF	No growth	
	RH	No growth	
	RF	No significant growth	
		Interpretation: Faith had a Staph. species infection in her left hind quarter at time of sampling.	
Ladyfinger	LH	No growth	
	LF	No growth	
	RH	Staph. species (moderate growth)	
	RF	No growth	
		Interpretation: Ladyfinger had a Staph. species infection in her right hind quarter at time of sampling.	
Zsa Zsa	LH	No growth	
	LF	No growth	
	RH	Strep. species (moderate growth)	
	RF	No growth	
		Interpretation: Zsa Zsa had a Strep. species infection in her right hind quarter at time of sampling.	
Leap	LH	No growth	
	LF	<i>No sample</i>	
	RH	No growth	

	RF	No growth	
Amarillo	LH	Strep. species (moderate growth)	
	LF	No growth	
	RH	No growth	
	RF	Staph. species (moderate growth)	
		Interpretation: Amarillo had a Strep. species infection in her left hind quarter and a Staph. species infection in her right front quarter at time of sampling.	
Kowabunga	LH	No significant growth	
	LF	Staph. species (minor growth)	
	RH	Staph. species (minor growth)	
	RF	Staph. species (minor growth)	
		Interpretation: Kowabunga may have had a Staph. species infection in her left front, right hind, and right front quarter at time of sampling.	
WMCA	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	Corynebacterium species (minor growth)	
		Interpretation: WMCA may have had a Corynebacterium species infection in her right front quarter at time of sampling.	
Chalupa	LH	Staph. species (moderate growth)	
	LF	Staph. species (moderate growth)	
	RH	Staph. species (moderate growth)	
	RF	No significant growth	
		Interpretation: Chalupa had a Staph. species infection in her left hind, left front, and right hind quarter at time of sampling.	
Mini Golf	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Krone	LH	No growth	
	LF	Staph. species (moderate growth)	
	RH	Staph. species (minor growth)	
	RF	Staph. species (moderate growth)	

		Interpretation: Krone had a Staph. species infection in her left and right front quarters, and possibly in her right hind quarter at time of sampling.	
Webster	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	Staph. species (moderate growth)	
		Interpretation: Webster had a Staph. species infection in her right front quarter at time of sampling.	
Willy	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	Staph. species (moderate growth)	
		Interpretation: Willy had a Staph. species infection in her right front quarter at time of sampling.	
Kodiak	LH	Strep. species (moderate growth)	
	LF	No growth	
	RH	No growth	
	RF	No growth	
		Interpretation: Kodiak had a Strep. species infection in her left hind quarter at time of sampling.	
Zoe	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Freddie	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Darla	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No significant growth	
Chive	LH	Gram negative Coliform species (heavy growth)	

	LF	No significant growth	
	RH	Gram negative Coliform species (minor growth)	
	RF	No growth	
		Interpretation: Chive had a coliform species infection in her left hind and right hind quarter at time of sampling.	
Lioness	LH	No growth	
	LF	No growth	
	RH	Staph. species (moderate growth)	
	RF	No growth	
		Interpretation: Lioness had a Staph. species infection in her right hind quarter at time of sampling.	
Atlantic	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Lilac	LH	No growth	
	LF	No growth	
	RH	Staph. species (moderate growth)	
	RF	No growth	
		Interpretation: Lilac may have had a Staph. species infection in her right hind quarter at time of sampling.	
Madge	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Licorice	LH	No growth	
	LF	No growth	
	RH	Staph. species (minor growth)	
	RF	<i>No sample</i>	
		Interpretation: Licorice may have had a Staph. species infection in her right hind quarter at time of sampling.	
Cheese	LH	No growth	
	LF	<i>No sample</i>	
	RH	No growth	
	RF	<i>No sample</i>	

Martina	LH	Staph. species (moderate growth)	
	LF	No growth	
	RH	No growth	
	RF	<i>No sample</i>	
		Interpretation: Martina had a Staph. species infection in her left hind quarter at time of sampling.	
Lop	LH	Staph. species (moderate growth)	
	LF	No growth	
	RH	<i>No sample</i>	
	RF	No growth	
		Interpretation: Lop had a Staph. species infection in her left hind quarter at time of sampling.	
Khaki Beige	LH	No growth	
	LF	Staph. species (moderate growth)	
	RH	No growth	
	RF	No growth	
		Interpretation: Khaki Beige had a Staph. species infection in her left front quarter at time of sampling.	
Fresno	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	No growth	
Lordwalk	LH	No growth	
	LF	No growth	
	RH	No growth	
	RF	Staph. species (moderate growth)	
		Interpretation: Lordwalk had a Staph. species infection in her right front quarter at time of sampling.	
Clinical sample			
Lego	LH	No growth	
	LF	No growth	
	RH	Gram negative Coliform species (heavy growth)	
	RF	No growth	

		Interpretation: Lego had a coliform infection in her right hind quarter at time of sampling.
